Report from the Chairman of the Board of Directors

In last year's report I spoke about the growth the credit union has incurred over the last few years and how our Board had expanded from five positions to seven positions so that the Board, composed of unpaid volunteers, could more effectively lead and monitor the credit union.

This year, working with our excellent management team and a consultant we have been reviewing how the credit union is providing service to membership. Over the last few years, we have almost tripled our assets, but our credit union staff has not expanded. Our goal over this year is to develop and add positions to the credit union so that we can maintain our excellent level of service while also expanding and developing our product line.

Earlier this year the Board and the management team met in a strategic planning session specifically designed to look at how we can increase profitability so that we can add the positions we need to service members' needs.

This will be an exciting year in the credit union as we continue to strive to be the best organization serving its members in East County.

Respectfully Submitted,

Paul Schnaubelt Chairman of the Board

Report from the Chairman of the Supervisory Committee

The Supervisory Committee's primary function is to monitor the Credit Union's financial operations and ensure that the Board of Directors and the Management Team operate in accordance with the regulations established by the National Credit Union Administration (NCUA), the credit union's bylaws and other state and federal law. The committee members oversee the annual independent audit of the Credit Union and report the findings and deficiencies of each year's audit to the Board of Directors and the members.

Richards & Associates completed the Credit Union's Annual Audit of Financial Condition for the period ending June 30, 2023. In their report, the independent auditors expressed an unqualified opinion on the Credit Union's financial statements and confirmed that East County School's Federal Credit Union's financial position continues to be strong.

The Credit Union used Richards & Associates and Doeren Mayhew, CPA's and Advisors to perform internal, federal, and state audits. All compliance audits were completed as mandated by federal and state regulators.

During 2023, the following audits were conducted:

- BSA/AML Review (Bank
 2023 Audit of the Financial
 - Secrecy/Anti Money Laundering) Statements
- ACH Risk Assessment & Audit
 Lending Audit
- SAFE Act Compliance
 IT Risk Assessment & Audit
- Deposit Audit (Reg CC, D, E & Regulation P (Privacy) NCUA Part 707: Truth in Savings Review

]The Supervisory Committee worked with management to address any reported issues. Action has been taken to enhance the scope and depth of the required audits, with additional reviews of lending practices, branch operations, compliance audits, fraud prevention and internal controls. Computer/system security and fraud prevention continue to be an industry wide concern.

The Supervisory Committee currently consists of dedicated members who fill four of the five available positions. Our goal is to have five filled positions to cover oversight responsibilities for the (1) annual audit, (2) safeguarding of assets, (3) reviewing internal controls, (4) working with the internal and external auditors, (5) ensuring corrective actions are taken, (6) meeting with federal examiners, (7) researching member complaints and (8) performing bi-annual verification of member accounts.

Sincerely,

ままれ

Ken Leighton Chairman, Supervisory Committee

Report of the President/CEO

When I look back at 2023, I think about the importance and value of the trust we have with our ECS member-owners. Our positive reputation contributed to the many new and existing members who brought their large deposits to ECS during a time of negative consumer confidence in the banking industry as a whole; the result of two very large U.S. bank failures. Our deposit growth speaks volumes about the confidence and security our members feel with ECS.

More so than any other financial institution that I have worked at during my 50 years in this industry, ECS has a deep and personal connection to our Field-of-Membership, the local education community. We began serving the education community here in our East County Region in 1956, and we have proudly resisted the temptation to convert to a "Community Charter" in order to grow larger in assets. The relationship we have with our member-owners, and district leadership and decision-makers is quite literally our Super Power. This culture of trust is what has allowed us to serve our districts and their employees in ways that most other financial institutions only dream of.

In terms of growth in 2023, we have elected to manage our growth in ways that we have not had to since the 1950's. The tremendous growth we experienced during the first half of 2023, largely due to ECS being viewed as a safe landing spot in our member-owners "flight to safety", has caused us to slow down our asset growth over the second half of 2023, while still cultivating the largest new membership growth in more than 30 years.

The dramatic drop in interest rates in 2020, followed closely by a significant and continual increase in market rates caused an industry-wide liquidity crunch and stymied earnings for a period of time. Your credit union was not immune to these shifts in interest rates, however, 2024 should see us rebound to more normal levels of earnings.

As for emerging products and services in 2024, we are anticipating the launch of our Instant Payment solution that will allow our members to pay and receive funds between their accounts at other institutions, payments between family and friends, as well as payments to and from businesses in as little as 5 seconds, using a phone, tablet and/or PC. This digital payments revolution will change the way many of us manage our money and will serve to level the playing field between the largest banks in the nation, and the smaller community-based institutions. That will provide a wealth of opportunities for East County Schools Federal Credit Union to compete with the mega-banks without losing our close, personal ties to our member-owners.

Here's to a happy and healthy 2024 to all,

Steven A. Devan President & Chief Executive Officer
